

Prof. Munteanu Th. Florin

List of research and development projects (selection)

1. *EPURE – Réseau de formation continue energie – environnement*. Proiect nr. AC-JEP – 13076. Project in the frame of TEMPUS-Phare program.
2. *Rehabilitation Feasibility Study on Power Distribution in Bacău*. Project RO 9504/05-L003 Beneficiary: Ministry for Industry and Trade. Project in the frame of TEMPUS program.
3. *Integrated System for Hydropower Plants Control*. Grant 1729 in the frame of RELANSIN program.
4. *Intelligent apparatus and switching in power systems*. Grant 607 in the frame of CEEEX – Excellence in Research program.
5. *Experimental Research related to design, optimisation and operation of intelligent biaxial orientation of photovoltaic panels*. Grant 2274P financed by DAS Company.
6. *Methodology for high power plants maintenance optimisation*. Project 3186 in the frame of MENER program.
7. *Research platform development for renewable resources integration in autonomous installations*. Grant 608 in the frame of Romania - EU program for development of research infrastructure.
